OBJECTIVE

Third-year Computer Science Engineering student with hands-on experience building full-stack web applications and structured technical documentation. Seeking an internship opportunity to apply practical development skills, contribute to real-world projects, and grow as a software engineer.

EDUCATION

B.E. in Computer Science and Engineering

Mangalore Institute of Technology & Engineering (MITE), Moodabidri

3rd Year

CGPA: 9.48

12th Standard (PUC)

91% • 2024

10th Standard (SSLC)

97.12% • 2022

TECHNICAL SKILLS

Programming Languages	Java, Python, C, C++
Web Technologies	HTML, CSS, JavaScript, React
Core Concepts	Data Structures, Algorithms, Problem Solving
Domains	Web Development, AI/ML

PROJECTS

CaterEase – Tulunad Catering Hub

Mini Project, Web Technology with Mini Project (15CSL77)

- Built a mobile-first single-page web application using HTML5, Tailwind CSS, and vanilla JavaScript for browsing local caterers, calculating event costs, and submitting reviews.
- Authored a formal project report documenting design, implementation, and outcomes.

DailyFresh – Dairy & Grocery Shopping App

Personal Project • Flutter

- Designed a Flutter-based platform for selling and shopping dairy and grocery products, comprising an Android app, a dealer web dashboard, and an admin panel.
- Defined customer, dealer, and admin workflows including product catalog, subscriptions, and delivery-cutoff logic; built a working prototype.

AirWatch Rural – Air Quality Monitoring Dashboard

Personal Project

- Developed a self-contained HTML/CSS/JavaScript dashboard with simulated real-time air quality data, interactive chart visualizations, and an integrated chatbot assistant.

CERTIFICATIONS & ACHIEVEMENTS

- UiPath – Diploma of Completion, “Explore Automation Development with UiPath (v2024.10)” (Jun 2026)
- Delegate Participant, **Project Sankalp – Code4Change**, National 24-Hour Hackathon, Yenepoya (Deemed to be University) (May 2026)
